

Jet Collection

ENWORK

Meet the Jet Collection: the ultimate solution for the modern open plan office. Jet offers a complete suite of essentials, from power beams and height-adjustable desks to convenient storage options.

BEAM DETAILS

- Beam sections available in 48", 54", 60", and 72" widths. Other widths available upon request.
- One leg per pack includes routing holes for infeed and Ethernet cables from the floor to the beam; all feet feature a center hole to pass cords directly into the column, ideal when placing a leg over a floor core. A maximum of 24 Cat5 cables (UTP Solid 24AWG/4PRS) fit within a beam.
- Standard in 2-pack to 14-pack configurations.
- Not all beam sections require a T-leg support.
- Each beam section has two windows for duplex receptacles (ordered separately), and one window for data (data tree included) per user. For single-sided power, this is on one side.
- Available in all Enwork standard paint colors (including Designer Paints).

DESIGN DETAILS

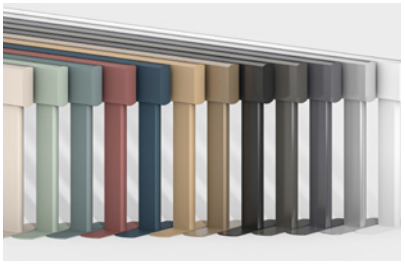

Curvilinear Foot Design

Integrated Cable Management

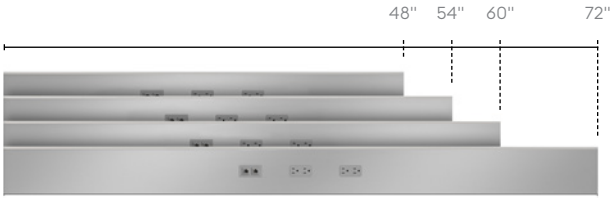

End Cap Design

12 Stunning Paint Colors

BEAM WIDTHS

BEAM HEIGHTS

Available in 24" and 29"H. Other heights are available upon request.

END PANELS

- End panels are 1/4" thick, double-sided laminate, and attached directly to the end of the beam.
- End panels are 29"H, 37"H, or 42"H to match beam and beam topper applications.
- End panels available in Single and Double-Sided configurations.

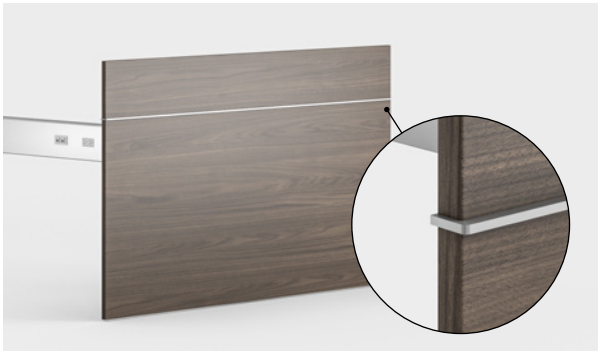

Single-Sided

Double-Sided

OPTIONAL ALUMINUM TRIM

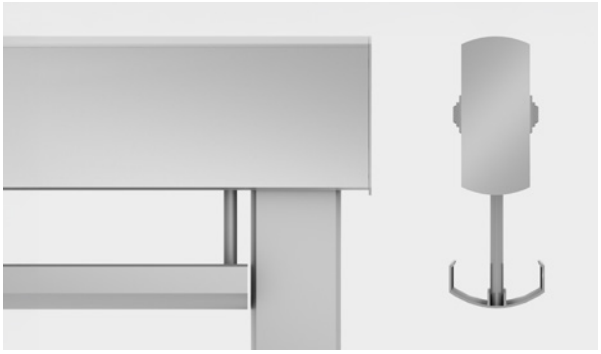

Aluminum trim is 24"H on 29"H panels, 29"H on 37"H panels, and 29"H on 42"H panels.

HANGING CABLE TROUGHS

Hanging cable troughs are used to support cables hanging from plugs, additional power strips, and additional cables beyond what is within the beam, or if exterior cable routing is preferred.

CURVILINEAR FORM

Sizes available for 48", 54", 60", and 72"W beam sections.

TWO-TONE BEAM

Top Cap paint is specified separately for optional two-tone paint scheme. Pair with matching cable trough for a complete look.

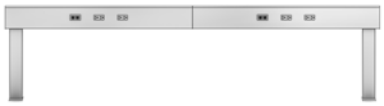

BEAM LEG PLACEMENT

Leg support quantities vary by pack size. See the breakdown below for specific configurations.

BEAM TOPPER DETAILS

- Topper screens available in 1/4" thick frosted acrylic, 1/4" thick Bronze acrylic, 1/4" thick Black acrylic, 1/4" thick glass (clear and frosted), and 1/4" thick non-tackable fabric panels.
- Acrylic and glass topper screen width is undersized by 3/4" per side on each beam section. Fabric topper screen width is undersized by 1/8" per side on each beam section.
- Screens extend 13" above top of beam. A 29"H beam is 42"H overall including topper screens. A 24"H beam is 34"H including topper screens.

MATERIALS

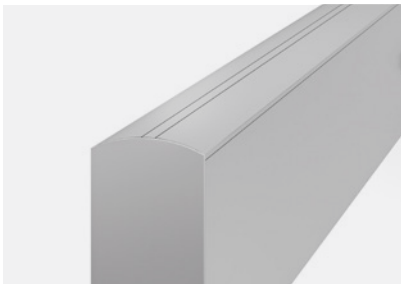

Acrylic (Frosted, Bronze, and Dark Grey)

Glass (Clear or Frosted)

Non-Tackable Fabric Panels

Top Cap Filler Piece
(provided when no topper screen is specified)

THREE UNIQUE TOPPER SHAPES

Rectangle

Curvilinear (Acrylic and Glass Topper Screens Only)

Curvilinear Ends Only (Acrylic and Glass Topper Screens Only)

STORAGE DETAILS

- Jet Storage has two grades of laminate pricing. Enwork standard solid laminates are lowest price. Patterned laminates have an upcharge.
- Mobile Pedestals are laminate, with no lock. Locking mobile pedestals are available in the Affinity Collection.
- Combo Storage and Lockers are laminate, with optional locks.
- Available with Arc or Sleek pulls.
- Combo Storage with levelers is 22"H. Caster and feet versions are 24"H.
- Combo Storage feet paint matches pull. Feet are 2-3/8" high including leveler.
- Drawer boxes are maple and file drawers include track for pendaflex files.
- Cushions are 1.875" tall overall, including 1.5" of foam.
- Cushions adhere to top of storage with dual lock velcro.
- Storage top laminate is specified separately from case for more design options.

MOBILE PEDESTALS

Box / File Mobile Pedestal
21.25"D x 16"W x 20.5"H

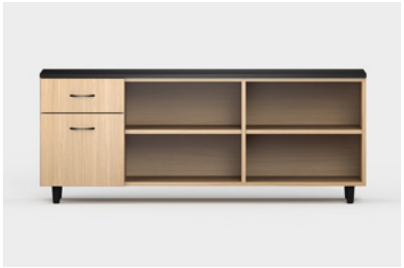

Cubby / File Mobile Pedestal
21.25"D x 16"W x 20.20"H

LOCKERS

Single Door Locker with Adjustable Shelf
(Right and Left Hand optional)
21.25"D x 16"W x 20"H

COMBO STORAGE

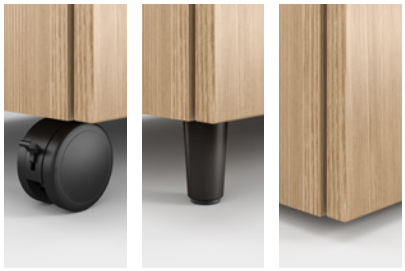

Ped / Bookcase (Right/Left Hand optional)
18"D, 30" – 60"W

Cubby / Double Door
18"D, 30" – 42"W

Fabric Cushions for Pedestals, Lockers,
and Combo Storage

Optional Casters, Feet, or Levelers
(Combo Storage only)

STANDARD HEIGHT-ADJUSTABLE ELECTRIC BASE & TOP DETAILS

- Bases come in two height adjustment ranges: Standard Range (27.5" – 46.7" w/ top) and ANSI/BIFMA range (23.88" – 49.75" w/ top).
- Standard bases are C-Leg configurations with Jet design detailing on the feet and worksurface support bracket to align with Jet beam and top design aesthetics. Value bases are T-Leg configurations with value rectangle feet and angled cantilevered brackets.
- Bases include quick-connect assembly features and adjustable cross bars for 48" – 72" wide tops. Longer crossbars available to order separately for wider tops.
- Standard bases have 240lbs load capacity (including worksurface). 90- and 120-degree bases have 315lbs load capacity (including worksurface).
- Actual top depth and width is 1-1/8" less than nominal to eliminate pinch points when used with height-adjustable bases.
- Jet Value LPL Tops (also known as TFL) are 3/4" thick.
- Tops have 3mm edges.
- Bases include patented gyroscopic anti-collision for increased collision sensitivity.
- Jet accessories include casters, cross bar kits, hinging troughs, Supreme Desktop Power Modules, 6-outlet 15 amp plug strips, and wire managers.
