ENWORK

Table Collections

Conference, Training, Ancillary, & Height-Adjustable

Wildly Functional, Always Beautiful.

Whether tailored for daily use, group collaboration, or private focus, Enwork tables adapt seamlessly to how modern spaces function — supporting the way people gather, learn, and work.

At Enwork, we know that it's about more than just furniture. Our focus is on developing solutions that create inspiring and productive spaces. We push the limits of design and engineering. We thrive on innovation and doing things differently. That's why we've built a culture centered around thinking ahead.

We anticipate needs, identify trends, and stay steps ahead of the curve. With rapid development and adaptive processes, we're always exploring and learning so our clients can optimize their spaces. That's why they come to Enwork. Because we know better than anyone how powerful a great idea can be.

Conference

Built for the meetings that matter, our conference tables deliver the perfect balance of design and versatility for any space.

Shown: Foundation Tapered Drum

1

2

Adventure™

Architectural elements such as bent and welded metal components, structural turnbuckles, and exposed birch ply legs create the industrial yet modern aesthetic of the Adventure table.

1 Industrial-Style Casters: Add effortless mobility to Adventure, allowing it to reconfigure on the fly as your space evolves.

2 Adventure Base Finishes: Standard in clear coat Birch and White Oak surfaces with birch ply edges. Metal components are available in a variety of paint finishes. Shown with Burgundy FENIX top and Burgundy painted metal, with white oak ply legs.

1

Alkalign

Alkalign is designed to meet the needs of a tech-forward organization. The incredibly-sturdy steel frame base is available in multiple configurations–including wedge tops and splayed legs–alongside configurations perfect for round and square tops.

3

2

1. Unique Top Shapes: Choose from several shapes like Rounded Diamond, designed for unobstructed sightlines across various applications.
2. Concealed Wire Management: Laminate, back-painted glass, or perforated metal infills keep cables out of sight while adding a mix of materials to elevate your space.
3. Creative Freedom: The steel base lets you paint Alkalign any color, transforming standard support into a design focal point.
4. Accent Lights: Integrated directly into the table surface, these dimmable lights feature auto-shutoff functionality and can be finished in any standard paint color.

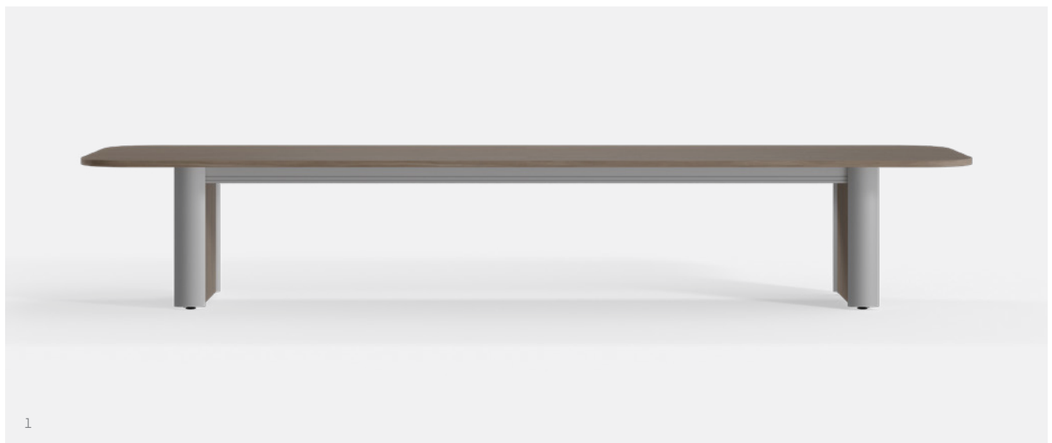

4

3

1

2

Camber

Camber combines soft curves with clean architectural lines, offering a fresh yet timeless base design that seamlessly supports collaborative environments.

1 Scalable Base: Capable of reaching up to 168" on just two bases – and up to 240" on three – Camber scales effortlessly to accommodate all floor plans.

2 Base Details: Featuring a crisp angle that softens into a gentle curve, the polished aluminum accent piece lends elevated visual detail to the Camber base.

3 Complementary Top Shapes: Tops featuring 10" radius corners pair seamlessly with the design of the base to maintain visual harmony from top to bottom.

Where Design & Engineering Meet.

Equilibrium

The perfect balance of form and function, Equilibrium turns any space into a design statement. Its patented design leverages a single base to create the illusion of a floating surface up to 20 feet wide and round tables up to 7 feet in diameter.

1 Optional Enclosed Base: Base covers keep heavy cabling completely concealed for a sleek, clutter-free look.

2 Round Tops: Supporting round tops up to 84" in diameter, a single angular leg gives Equilibrium its iconic, gravity defying aesthetic.

3 Offset Base & Exposed Truss: For a striking, architectural look, showcase the exposed truss paired with an offset base configuration.

Equilibrium™

Equilibrium offers exceptional range – featuring centered or offset bases, open truss and solid cantilevers, and multiple heights and dimensions. Designed around modern technology needs, built-in trough covers conceal power and cabling effortlessly.

1

2

3

Foundation™

Foundation conference tables combine a versatile, classic profile with expansive material choices to elevate any meeting setting. Integrated power and data options deliver seamless technology solutions tailored to high-performance collaborative spaces.

See pages 22, 24, 54,and 56 for coordinating Foundation furniture.

2

1

1 Panel Base & Trough Design: Featuring a deep trough and hollow panel base, Foundation can be positioned directly over floor cores using the 10" wide base, or adjacent to them using the 6" wide base for optimal power and cable routing.

2 Trough Kits: Maximize technology capacity with Foundation trough kits, giving users convenient, quick-connect access to power without clutter.

3 Built to Scale: With standard lengths up to 420", Foundation effortlessly accommodates even the largest boardrooms.

3

1

2

1 White Oak Tambour: Wrap the base in rich white oak tambour, available in many stain options for a sophisticated, textured look.

2 Foundation Half Drum: Tailored for conferencing applications, Foundation Half Drum delivers an understated base profile that elevates any meeting space.

3 Balanced Proportions: The base scales dynamically with round tops up to 96" in diameter, delivering uncompromised stability and clean visual harmony.

Foundation™ Drum

Foundation Drum reimagines a classic profile through a modern lens – combining rich material finishes with quietly integrated power to elevate sophisticated collaborative spaces.

3

1

2

Foundation™ Tapered Drum

Defined by its gentle silhouette, Foundation Tapered Drum pairs soft curves with a refined architectural profile. It blends minimalist design with the enduring quality and structural integrity of our best-selling collection.

1 Height-Adjustable: Accommodates tops up to 60" in diameter with smooth adjustment from 29.6" to 45.3" H.

2 Laminate or Steel Base Construction: Offered in a broad selection of laminates and paints, giving Foundation Tapered Drum the versatility to seamlessly blend in or serve as a bold focal point.

3 Capsule Tops: Complement the rounded Foundation base with the soft curve of a capsule top.

3

Landing™

Create an inviting space for team collaboration. Landing tables deliver an approachable aesthetic, daily functionality, and exceptional value.

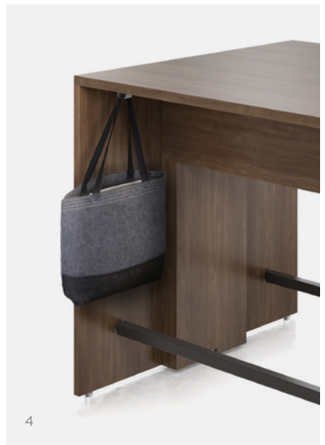

1

2

3

4

1 Footer Bar: Enhance ergonomic comfort during long meetings or work sessions by adding an optional footer bar to your Landing table.

2 Material Creativity: Utilize a variety of materials to add visual interest to your space.

3 Accent Lights: Integrated directly into the table surface, these dimmable lights feature auto-shutoff functionality and can be finished in any standard paint color.

4 Bag Hook: Keep your bag secure, off the floor, and easily within reach while keeping pathways clear.

Ligouri

Showcasing the rich warmth of solid wood legs paired with contrasting metal accents, Ligouri Conference brings refined detailing to any meeting space. An optional subframe creates a sophisticated, floating-top silhouette – while direct-mount leg options deliver authentic solid wood elements at an accessible price point.

See page 82 for coordinating Ligouri furniture.

2

3

1

4

1 Touchdown Table with Footer Bar: Optimize standing-height tables with an optional footer bar that enchances user ergonomics while reinforcing table stability.

2 Aluminum Accents: The integrated aluminum accent piece gives the appearance of a metal frame passing directly through the leg – adding a captivating architectural detail.

3 Optional Struts: Incorporate structural struts to introduce additional metal accents while providing extra stability for standing-height tables.

4 Frameless Design: Attaching legs directly to the top delivers an accessible price point without compromising on the rich warmth of solid wood legs.

Lugano™

Designed for maximum flexibility, Lugano provides an adaptable conference platform ideal for seated or standing touchdown collaboration.

1

2

1 Height-Adjustability: Intuitive user controls allow quick transitions between seated and standing collaboration.

2 Cable Management: The base's sturdy box design routes wiring directly down to floor cores, cleanly supporting tech-heavy setups.

1

Sawhorse

From conference spaces to training environments and casual third spaces, Sawhorse offers a simple, refined take on a timeless design.

2

1 Leg Placement: With legs being specified in pairs, select between straight and splayed leg styles that support various top shapes.

2 Café Environments: Sawhorse bases provide ideal support for round top shapes in busy third spaces.

3 Seated or Standing Heights: Available in 29" and 42" heights to adapt seamlessly to any space.

3

1

2

3

Sensation Next

Sensation Next is a comprehensive table platform engineered to elevate any collaborative space. From training rooms to boardrooms, this versatile design delivers exceptional functionality, enduring style, and unmatched value.

1 Base Styles: Available in T-, TT-, C-, Y-, and straight-leg options to suit any space.

2 4-Post X-Base: Ideal for conference rooms and collaborative third spaces, this option features the signature Sensation Next foot design to support both round and square tops.

3 Color Options: Personalize your space with our curated standard paints, or custom colors, designed to elevate any specification.

4 Large Conferencing: With spans up to 240" wide, Split Y-legs provide seamless support for large-scale conference tables.

4

Statement™

Statement tables combine a timeless O-leg design with beautiful laminate finishes for a versatile aesthetic.

1

1. Wire Routing: Concealed channels route wires directly through the O-leg base, preserving the table's clean lines while keeping power within reach.
2. Exposed Ply Edge: An optional exposed ply edge brings natural wood warmth to clean, architectural lines for a sophisticated modern detail.

2

Stealth™

Featuring angular, expressive aluminum extrusions, Stealth tables bring subtle sophistication to any room. Available in seated or standing heights with a sleek anodized or painted aluminum base.

2

1

3

1 Trough Covers: Removable covers neatly conceal loose cables beneath the surface, maintaining a clean profile from every angle.

2 Maximized Legroom: Engineered structural beams reduce the need for extra bases, spanning up to 156"W on two bases and 168"–240"W on three.

3 Angled Extrusion Accent: Stealth's signature extrusion balances a high-end angular aesthetic with uncompromised rigidity for demanding environments.

Universal Videosharing

In today's modern workspace, collaboration happens both around the same table and across long distances. As video-conferencing becomes essential, the Universal Videosharing Collection offers a versatile matrix of bases and organic top shapes designed to bring people together.

1

2

3

1 Wall Cleats and Disc Base: When space is limited, wall cleats provide an ideal solution – maximizing your square footage while delivering seamless digital integration for collaborative work.

2 Foundation Monitor Lift and Foundation Base: The Foundation Monitor Lift base offers flexible dual-purpose collaboration. When technology is needed, it's ready at a moment's notice; when it's not, the monitor seamlessly retracts into the base, keeping your space clean and distraction-free.

3 Zori Post Legs and Zori Split-Y Base: For a clean, freestanding videosharing environment, pairing Zori bases with an organic guitar pick top and monitor mast creates the ideal collaborative solution.

VOU

Shape the Conversation.

The premier solution for V-, O-, and U-shaped conferencing, VOU elevates the modern boardroom. With expansive layout flexibility and signature details like integrated lighting, it creates a truly distinguished meeting environment.

1

VOU

Offered in a wide range of sizes, angles and shapes, VOU accommodates trending plan requirements and room layouts. Designed to maximize leg room and optimize sightlines, VOU creates an ideal environment for in-person collaboration and hybrid video-conferencing.

2

3

4

5

1 V-Shape: Available in 95-, 100-, and 150-degree configurations to maximize sightlines for in-person collaboration or hybrid video-conferencing.

2 O-Shape: Designed with a removable 30" pass-through section – providing seamless access to the inner table area for presentations, servicing, or cleaning.

3 U-Shape: Accommodates groups of up to 30 seats in standard configurations for large scale conferencing solutions.

4 Optional Aluminum Trim: Available in painted or polished finishes, this accent detail adds architectural interest and refinement to your space.

5 Optional LED Accent Lighting: Integrated, dimmable lighting creates a refined ambiance while elevating the table's aesthetics.

1

Zori® Conference

Designed for modern educational and training environments, the Zori Collection – including Zori Conference – aligns seamlessly with today's learning methodologies and current architectural trends.

2

1 Focused Comfort: An integrated footer bar supports natural posture, ensuring total comfort during collaborative work sessions.

2 Scalable Depths: Available in depths ranging from 36" to 72" to adapt effortlessly to your space's exact footprint.

3 Dynamic Finishes: Inject energy into any room with our extensive selection of standard paint and polished finishes for the base.

4 Signature Zori Foot: Anchored by the collection's signature foot design, Zori Conference fits effortlessly into a variety of interior spaces.

3

4

Reaching New Lengths in Conferencing.

Expanse

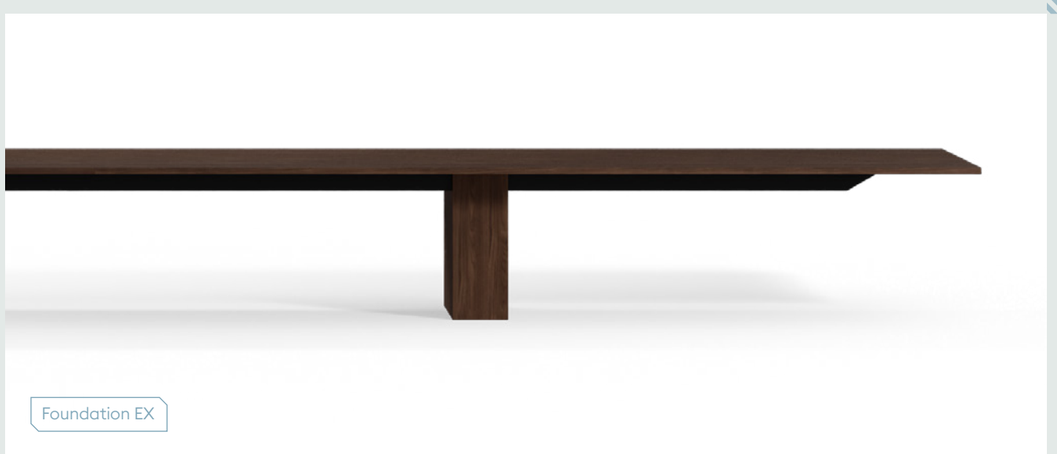

Foundation Tapered Drum EX

EX Collection

Built to scale, the EX Collection revolves around a singular engineering achievement: tables that span up to 36 feet on just two bases, available in a variety of styles. Paired with coordinating credenzas up to 10-feet wide, this collection is engineered for big ideas.

Odyssey EX

Foundation EX

Expanse

Spanning Up to 36 Feet on Just Two Bases.

Expanse

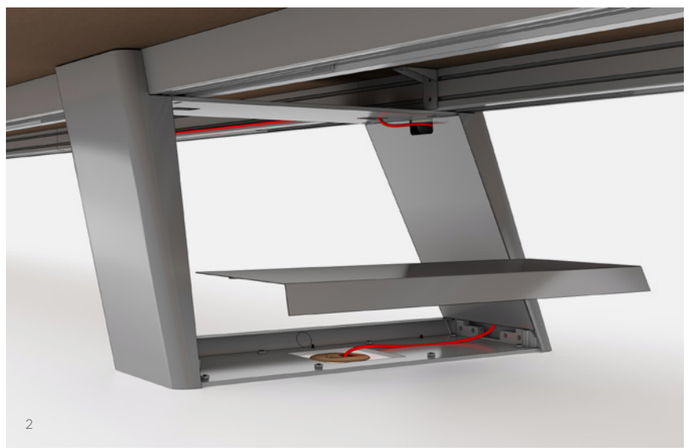

Excellence in design and engineering fuse to create a clean, light, and modern solution for boardrooms and collaborative team spaces. Span up to 36' effortlessly with the innovatively designed Expanse base.

1 96" to 432" widths: Love the look of Expanse but working with a smaller footprint? Available in widths as compact as 96", Expanse brings its signature aesthetic to conference rooms of any size.

2 Wire Routing: Great collaboration is powered by technology. Expanse supports the vision with integrated cable access, ensuring that even the most complex setups remain clean and functional on your floor plan.

1

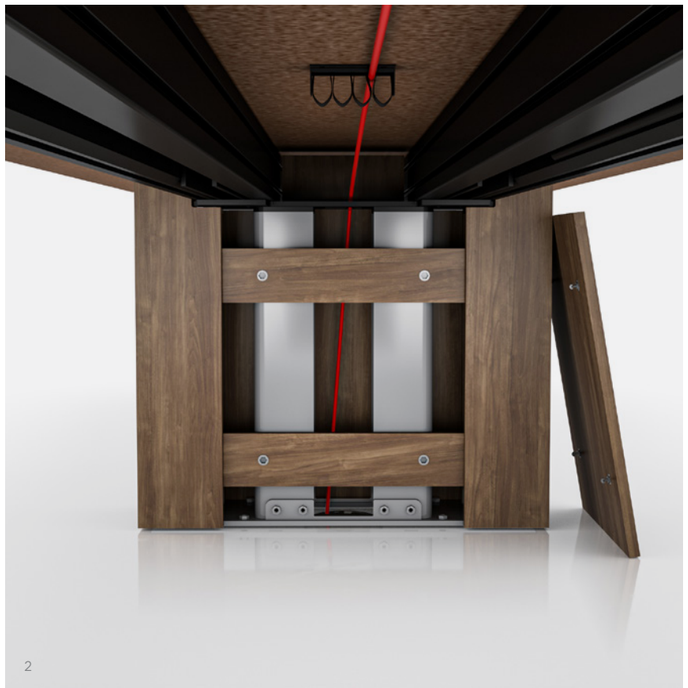

2

Foundation™ EX

Simple, understated design makes Foundation EX a boardroom staple for years to come. With integrated power and data options, this classic design is elevated with modern technology capabilities.

1

2

1 Signature Foundation Collection Design: Building on the legacy of a staple collection, Foundation EX integrates seamlessly with the product ecosystem, ensuring a cohesive architectural language across the entire floor plan.

2 Access Door: Experience effortless cable management through a magnetic access panel – designed to keep wiring completely out of sight while offering immediate, intuitive entry for IT support.

Foundation™ Tapered Drum EX

Foundation Tapered Drum EX strikes a perfect balance, featuring the distinctive soft curves and angular lines of its tapered drum base. This design is seamlessly paired with a robust sub-table structure that provides exceptional support for large conferencing applications.

1

2

1 Pair with Quartz or Glass: Elevate your design with quartz or glass surfaces, engineered to maintain a stunning 36-foot span on only two bases.

2 Convenient Access Panel: The base features a seamless, removable access door, ensuring convenient connectivity without compromising the table's streamlined profile.

3 Refined Tapered Profile: Sharing the proven platform of the EX Collection, Tapered Drum EX supports tops up to 36 feet with just two bases – delivering large-scale performance with a more expressive silhouette.

3

1

Odyssey EX

Featuring a sculptural, molded fiberglass base, this design utilizes a signature twist to create a compelling architectural focal point that commands attention.

1 Single- or Double-Base: The Odyssey single-base carries the collection's bold architectural identity into round and square table configurations. With two bases, Odyssey can span the 36 feet the EX Collection is known for.

2 Access Door: Cords route seamlessly through the table's base, which features a conveniently located access door complete with a mouse-hole pass-through for easy routing to nearby floor cores.

3 Materiality: Choose from an extensive selection of paints, laminates, quartz, and glass tops to create a custom combination that truly commands the room.

Zori Monitor Lift

Zori Flip Tables

Training

Big ideas need room to move. Whether flipping, rolling, or nesting, our training tables have you covered.

Shown: Quantum Flip Table

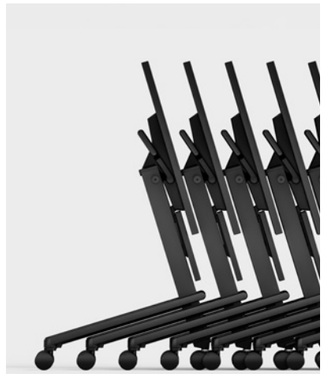

1 Patented

2 Patented

Quantum

Recognized as the industry's most advanced training table, with award-winning innovations like patented auto-locking casters, an intuitive soft-close flip mechanism, and height-adjustable casters.

3

1 Articulating Modesty Panel: Moves in sync with surface when flipped.

2 Auto-Locking Casters: Patented mechanism allows the table to be mobile when the top is flipped up and locked in place when in use.

3 Dense In-line Nesting: Perfect in-line nesting allows Quantum to be stored at just 5.75" from table to table.

1

2

Ritz™

Featuring a slim silhouette and a reinforced laminate backer, Ritz pairs a clean contemporary look with exceptional durability – built to thrive in high-use educational spaces.

1 Cable-less Flip Mechanism: The intuitive flip bar allows users to effortlessly engage the mechanism form any point beneath the table, making reconfiguration easier than ever.

2 In-Line, Dense Nesting: The Ritz table's distinct leg profile enables seamless in-line nesting, ensuring effortless storage when the tables are not in use.

Zori®
Lecture Hall

Built for high-impact, tech-heavy, tiered training environments, Zori Lecture Hall combines market-leading durability with secure cable management via a fully enclosed, tamper-resistant trough. Its color-matched metal foot and leg, featuring Zori's signature squircle shape, deliver an elegant yet highly functional solution.

1

2

1 Foot Cover: Painted to match the leg, the aluminum foot cover provides incredible durability while matching the squircle leg design.

2 Tamper-Free Cable Management: A fully enclosed aluminum trough, built to prevent tampering and hide unsightly cords.

3 Integrated Modesty: Wraps around the aisle side to ensure complete coverage.

3

1

1 Zori Media Center: Designed for tech-enabled active learning, enabling instant room reconfigurations. Available freestanding with an integrated hanging hitch or as a complete table with a compact wedge top.

2 Signature Foot Design: Balancing soft curves with sharp geometry, the signature Zori foot adds a refined, modern finish to any space.

3 Zori Monitor Lift: Available in single- or dual-user options with effortless operation, concealed cable management, and hidden accessory storage for clear, uncluttered sightlines.

4 Zori Flip Tables: Built for dynamic learning spaces, Zori pairs its iconic base with an advanced flip mechanism to deliver time-tested stability without sacrificing flexibility.

2

3

Zori® Training

A step above in design and versatility, Zori is our most comprehensive collection. With crisp lines, four distinct aluminum base profiles, and over 35 product types, Zori delivers design consistency and lasting durability to every space focused on learning and training.

Universal Laptop Table

Ancillary

Designed for the spaces between focused work, Enwork ancillary tables support how people naturally gather, converse, and connect.

Shown: Oh Hey!

It’s Nice to Have a Moment, Occasionally.

From quiet morning coffee to quick team huddles and spontaneous catch-ups, our ancillary tables serve as natural gathering points.

Featuring distinct designs that blend seamlessly into any layout, they offer an inviting setting to connect, converse, and recharge.

1

2

Cortina

Tailored for dynamic mobile work, Cortina offers an adaptable worksurface for brief check-ins or sustained focus. Its compact, intentional silhouette integrates effortlessly into lobbies, reception areas, and high-traffic environments – combining refined aesthetics with functional support for on-the-go productivity.

3

1 Top or Front-Facing Power: Integrated top or front power access delivers effortless connectivity, keeping your devices charged without interrupting your workflow.

2 Quartz or Solid Surface: Wrapped in durable quartz or solid surface materials, Cortina delivers high-performance resilience paired with a clean, upscale finish.

3 Chamfered Design Detail: Angled chamfer details along the quartz or solid surface edges create subtle depth, adding intrigue to Cortina's clean geometry.

1

Disc & Square

Disc and Square bases offer versatile pairing with round or square tops – designed to either make a statement or integrate seamlessly into your space. Available in an array of colors and finishes, their enduring durability makes them an ideal choice for third spaces.

2

3

1 Make a Statement in Color: Choose from our full range of standard paint finishes to bring dynamic energy to your environment.

2 Pneumatic Bases: Features an intuitive, easy-to-use adjustment paddle mounted discreetly below the worksurface.

3 Café Environments: Designed for high-energy café spaces, Disc & Square bases pair seamlessly with booth seating solutions.

Emerson

Designed for today's most active environments, Emerson delivers high-impact utility and clean design at an exceptional value. Crafted with steel legs and laminate or veneer tops, its streamlined profile serves as an ideal touchdown spot for corporate cafés, dynamic makerspaces, and creative hubs.

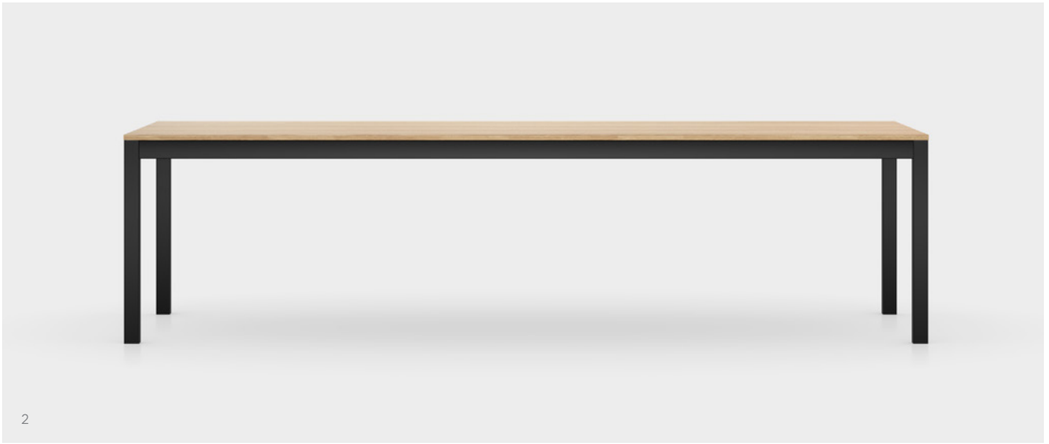

1

1 Paint Options: Mix and match colors to create a bold, tailored statement with your Emerson table.

2 120" Width on Four Legs: Emerson achieves a 120" span using just four legs, maintaining a clean, light-scale profile.

2

1

2

Kinsey

Designed for demanding shared spaces, Kinsey delivers long-lasting performance for cafeterias alongside effortless adaptability for impromptu collaboration.

1 Range of Heights: Spanning from coffee table height to standing height, Kinsey aligns with the design intent of any environment to support posture and purpose.

2 Extensive Finish Options: Choose from 12 standard paint colors or brilliant polished aluminum to personalize Kinsey to your project's color story.

Ligouri

Bring people together in cafés and casual spaces with the Ligouri Occasional and X-Base tables – designed to spark creative ideas over quick coffees and warm conversations.

See page 28 for coordinating Ligouri furniture.

2

3

1

4

1 Standing-Height X-Base: Designed for easy perching in open layouts, the 4-post X-base adds depth, character, and functional dimension to any third space.

2 Side Tables: Perfect next to comfortable seating, Ligouri end tables accommodate 18" and 24" round tops.

3 Quartz Toppers: Elevate your space by pairing the sleek, thin-profile beauty of quartz with the welcoming warmth of Ligouri's solid wood base.

4 Coffee Tables: Available with both round and rectangle tops, Ligouri coffee tables serve as an elegant focal point for any collaborative layout.

1

Oh Hey!

Bring character and utility to lounge environments with Oh Hey!, designed to support quick tasks and natural touch points. This collection creates an approachable, collaborative setting for any team.

2

3

1 White Oak Tambour: Oh Hey! tables can be specified with tambour, infusing the design with the organic warmth and luxury of solid white oak.

2 A Shape for Every Space: Expressive, organic profiles offer a striking alternative to standard rectangular footprints, introducing energy to collaborative spaces.

3 Stunning Surfaces: Elevate your Oh Hey! table with a quartz or back-painted glass top, bringing a refined, high-end finish to any lounge setting.

4 Integrated Shelving: Optional steel or glass shelving provides a convenient resting spot for personal items during quick catch-ups and impromptu meetings.

4

1

2

3

Tangent & Universal Laptop

Modern, angular, and expressive, Tangent tables bring an intriguing sculptural presence to gathering spaces. Precision-angled steel legs create a captivating optical illusion – appearing to meet and diverge to deliver a timeless aesthetic.

1 Nesting Heights: Available in three distinct heights, Tangent tables enable layered groupings that add visual depth and architectural interest to high-traffic environments.

2 Tangent Laptop Table: As intentional as it is functional, the Tangent Laptop Table utilizes a distinct double-column base to deliver steadfast stability and a refined visual edge to the modern office.

3 Universal Laptop Table: Designed to pair effortlessly with coffee and notebooks, the Universal Laptop Table adapts to any work environment. Its low-profile base slides seamlessly beneath soft seating, keeping work and technology within easy reach.

XTB4

Height-Adjustable

Designed for sitting, standing, and everything in between, Enwork's height-adjustable solutions bring dynamic movement and ergonomic flexibility to the modern workday.

Shown: Jet Height-Adjustable Desk

Jet Collection

Ready, Set, Jet.

Meet the Jet Collection: the ultimate solution for the modern open-plan office. Jet offers a complete suite of essentials, from capable power beams and height-adjustable desks to convenient storage options.

Jet

Thoughtful design and intriguing finishes do more than fill a space – they elevate the daily work experience. Jet top shapes, featuring an optional curvilinear design, pairs beautifully with the entire collection and creates aesthetic continuity in the workspace.

1

1 Collection-Based Design: Jet combines softened geometric curves with everyday utility. Subtle details elevate the entire line, bringing sophisticated interest to a highly functional design.

2 Top Shapes: Available with rectangular, curvilinear, or curvilinear on just one end, Jet tables offer versatile top shapes to match the flow and design cues of your space.

3 Height-Adjustable Bases: Choose from four configurations – paining a curved foot C-leg or rectangular foot T-leg with either a Standard or extended ANSI/BIFMA height-adjustment range.

2

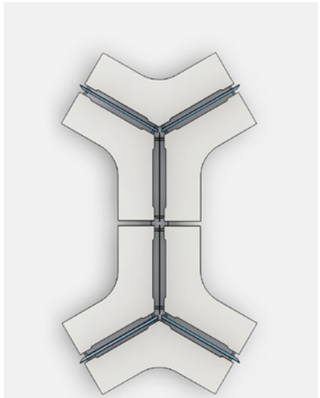

2

1

XTB4

XTB4 promotes ergonomic wellness without compromising footprint. Available in multiple versatile layouts, each features ANSI/BIFMA height-adjustability and seamlessly integrated cable management.

2

3

1 Industry-Leading Electric Bases: XTB4 is a premier linked benching system, engineered for maximum comfort and versatility.

2 120-Degree Layouts: With flexible configurations – like the 120-degree 6-pack shown – XTB4 effortlessly adapts to support your ever-evolving workspace.

3 Screens: Enhance personal space and focus with division screens between users, available in any of our standard fabric options.
